What Makes River Cruising So Different (and So Popular)

River cruising offers a completely different experience compared to traditional ocean cruising:

- **Dock directly in the heart of historic cities and towns**
- **Enjoy a highly immersive, destination-focused itinerary**
- **Experience included guided tours in nearly every port**

This journey begins in Regensburg, travels through Passau, Melk, Dürnstein, Vienna, and Bratislava, and concludes with an arrival and overnight stay in Budapest, with guided walking tours, eBike options, cultural experiences, and onboard entertainment — most of which are already included.

7-night Danube River Cruise

CRUISE DATES: July 10 - July 17, 2027

Ship Departs: Regensburg (Munich area)

Arrive: Budapest (overnight)

STAR SHIP: Emerald Dawn

8 year old - max size river ship w/panoramic windows

An unbeatable deal for a quality river cruise!

Why Emerald Cruises — Especially Compared to Viking

Many travelers are familiar with Viking, which makes Emerald an easy comparison — and a compelling one. Emerald offers a similar upscale experience with key advantages:

- **Same size ships — fewer guests for a more relaxed, uncrowded feel**
- **Operated by the Scenic Group, a long-established, globally respected company**
- **Comparable guest satisfaction ratings, including on CruiseCritic**

You're receiving an upscale river cruise experience with better overall value.
